
PIE FUNDS MANAGEMENT SCHEME

Product Disclosure Statement

ISSUED BY
PIE FUNDS MANAGEMENT LIMITED
DATE 7 AUGUST 2020

This is a replacement Product Disclosure Statement, replacing the Product Disclosure Statements dated 6 July 2020, for the following Funds:

- *Pie Australasian Growth Fund (CLOSED);*
- *Pie Australasian Dividend Fund;*
- *Pie Australasian Emerging Companies Fund (CLOSED);*
- *Pie Growth 2 Fund;*
- *Pie Global Growth Fund – formerly Global Small Companies Fund;*
- *Pie Global Growth 2 Fund – formerly Climate Friendly Fund;*
- *Pie Growth UK & Europe Fund; and*
- *Pie Conservative Fund*

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on www.disclose-register.companiesoffice.govt.nz. Pie Funds Management Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013. You can also seek advice from a financial adviser to help you to make an investment decision.

1

Key information summary

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Pie Funds Management Limited ('Pie Funds', 'the Manager', 'we', 'us' or 'our') will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of Pie Funds and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

Eight funds are offered under this Product Disclosure Statement ('PDS'). These investment options are summarised below. More information about the investment target and strategy for each investment option is provided in Section 3 'Description of your investment option(s)'.
Not all funds under the Scheme are offered in this PDS.

Fund	Description and Objective	Risk Indicator*	Estimated annual fund charges (% of net asset value)**
AUSTRALASIAN GROWTH FUNDS			
Pie Australasian Growth Fund (CLOSED)⁺ (Growth Fund)	Invests predominantly in listed Australasian smaller [^] growth companies. Objective: Generate capital growth, which outperforms the market index.***	Potentially Lower Returns Potentially Higher Returns 1 2 3 4 5 6 7 Lower Risk Higher Risk	1.85%
Pie Australasian Dividend Fund (Dividend Fund)	Invests predominantly in listed Australasian smaller [^] and medium [^] growth companies, paying dividends. Objective: Generate capital growth from predominately dividend paying companies, and outperform the market index.***	Potentially Lower Returns Potentially Higher Returns 1 2 3 4 5 6 7 Lower Risk Higher Risk	1.85%
Pie Australasian Emerging Companies Fund (CLOSED)⁺ (Emerging Fund)	Invests predominantly in listed Australasian emerging [^] companies. Objective: Generate capital growth, which outperforms the market index.***	Potentially Lower Returns Potentially Higher Returns 1 2 3 4 5 6 7 Lower Risk Higher Risk	1.85%
Pie Growth 2 Fund (Growth 2 Fund)	Invests predominantly in listed Australasian smaller [^] and medium companies. Objective: Generate capital growth, which outperforms the market index.***	**** Potentially Lower Returns Potentially Higher Returns 1 2 3 4 5 6 7 Lower Risk Higher Risk	1.85%

⁺ **What 'CLOSED' means:** Pie Funds can and will close funds to preserve their capacity to generate excess returns. With some active investing strategies, particularly those involving small companies, it becomes harder to buy and sell positions optimally if fund size is too large. Taking too long to buy or sell typically has an adverse impact on price, which impacts return.

Fund	Description and Objective	Risk Indicator*	Estimated annual fund charges (% of net asset value)**
GLOBAL GROWTH FUNDS			
Pie Global Growth Fund (Global Growth Fund)	Invests predominantly in listed international smaller [^] companies, international managed funds and other products issued by Pie Funds. Objective: Generate capital growth, which outperforms the market index.***	Potentially Lower Returns Potentially Higher Returns 1 2 3 4 5 6 7 Lower Risk Higher Risk	1.62%
Pie Global Growth 2 Fund (Global Growth 2 Fund)	Invests predominantly in listed international large [^] companies. It will focus on companies with lower exposure to carbon emissions and fossil fuel reserves. Objective: Generate capital growth, which outperforms the market index.***	**** Potentially Lower Returns Potentially Higher Returns 1 2 3 4 5 6 7 Lower Risk Higher Risk	1.45%
Pie Growth UK & Europe Fund (Growth UK & Europe Fund)	Invests predominantly in listed UK & European smaller [^] and emerging [^] companies. Objective: Generate capital growth, which outperforms the market index.***	**** Potentially Lower Returns Potentially Higher Returns 1 2 3 4 5 6 7 Lower Risk Higher Risk	1.85%
DIVERSIFIED FUND			
Pie Conservative Fund (Conservative Fund)	Invests predominantly in fixed interest securities and some cash, with modest allocation to equities (directly or through other products issued by Pie Funds). Objective: Preserve capital (with some growth), which outperforms the market index.***	Potentially Lower Returns Potentially Higher Returns 1 2 3 4 5 6 7 Lower Risk Higher Risk	0.82%

*During times of extreme market volatility, the risk may be greater than indicated, particularly for funds investing in smaller companies which can be more volatile during market sell down. Past performance may not be a reliable indicator for the risk of the Fund.

**After fees and before tax. Inclusive of dividends. Annual fund charges include an estimate of applicable underlying fund charges, if any. See Section 5 'What are the fees' for more information on fees.

***Benchmark information can be found in the Statement of Investment Policy and Objectives, available at www.piefunds.co.nz.

**** These funds do not have a five-year return history. The risk indicator was prepared using the fund returns since inception and market index returns for the balance of the five-year period. Accordingly, the risk indicator may provide a less reliable indicator of the potential future volatility of the Fund. Market index returns were used for the following periods from 1 July 2015 to 31 July 2015 (Growth 2), to 30 April 2018 (Global Growth 2) and 31 October 2016 (Growth UK & Europe).

[^] For definitions of 'smaller' 'medium', 'large' and 'emerging' companies, please see notes section of Section 3 'Description of your investment option(s)'.

See Section 4 'What are the risks of investing?' for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial adviser or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Who manages the Scheme?

Pie Funds manages the Scheme. Please see **Section 7: 'Who is involved?'** for more information.

What are the returns?

Returns from our investment come from changes in the unit price and any income distributions made. We do not intend to make any regular distributions from the Funds except from the Dividend Fund and Conservative Fund. Please see '**Section 2: How does this investment work?'** for more information.

How can you get your money out?

Your investment in the Funds is redeemable. However, in certain circumstances we may defer payment or suspend your ability to withdraw. See '**Section 2: How does this investment work?'** for more information.

Your investment in the Funds can be sold but there is no established market for trading these products. This means that you may not be able to find a buyer.

How will your investment be taxed?

Each Fund is a portfolio investment entity (**PIE**) for tax purposes. The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (**PIR**). This can be 0%, 10.5%, 17.5% or 28%. See **Section 6: 'What taxes you will pay?'** for more information.

Where can you find more key information?

Pie Funds is required to publish quarterly updates for each Fund. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at www.piefunds.co.nz. The Manager will also give you copies of those documents on request.

2

How does this investment work?

The Funds are offered under a registered managed investment scheme known as the Pie Funds Management Scheme ('Scheme'). This is governed by a trust deed ('Governing Document'). Each Fund is established as a separate trust within the Scheme.

Each Fund enables you to pool your money with others who have invested in those Funds. Your interests are represented by units conferring an equal interest in a Fund and which are of equal value.

The value of units in each Fund fluctuates according to the changing value of the assets the Fund invests in. The total value of your investment in a Fund at any time is the number of units you hold in that Fund multiplied by the current unit price.

The assets and liabilities of each Fund are the exclusive property/liabilities of that Fund. The assets of a Fund are not able to meet the liabilities of any other Fund in the Scheme.

Distributions

Apart from the Dividend Fund and Conservative Fund, we do not intend to make any income distributions from the Funds (but retain the discretion to do so, including from closed Funds if performance continues to grow the size of assets under management). Any income or capital gains will be included in the unit price.

We intend to make bi-annual income distributions from the Dividend Fund, declared on or about 30 June and 31 December and the Conservative Fund declared on or about each quarter end. Distributions are paid into your nominated bank account or you can choose to have them reinvested in the relevant Fund, as additional units. Distribution amounts will vary between distribution periods, are not guaranteed and are subject to our discretion.

A distribution is a percentage of income received from your investment.

Significant features

We have an active investment strategy, the key features of which are:

1. It is based on our belief skilled active investing helps deliver good, long-term results;
2. We research investments to determine:
 - which types and mix of assets will best meet investor's goals without unnecessary risk, given market conditions;
 - how best to invest in those assets (e.g. directly, through exchange traded funds ('ETFs'), with physical securities or using derivatives); and
 - which securities to invest in.
3. Our key competencies are in active equities. We look for a relatively small number of companies we believe the market has mispriced relative to the companies' outlook. This

means we pick companies we believe:

- are good quality;
- have qualities not currently recognised by the market; but
- the market will come to recognise, and appropriately value, their quality.

4. Where we do not have key competencies in areas beneficial to investors, we engage with organisations e.g. research providers, which can provide them.
5. We believe competent management of Environmental, Social and Governance ('ESG') matters positively contributes to the long-term value of companies. As such, ESG considerations are incorporated within the investment process. Our ESG Policy can be found at www.disclose-register.companiesoffice.govt.nz.

Benefits

Investing in the Funds offer a range of benefits, including:

- **Access to investments:** The Funds provide exposure to a globally diversified portfolio of investments.
- **Investment return:** Depending on the Fund, it aims to either preserve and/or grow your capital by accessing the high potential growth of actively managed equities, coupled with the diversifying effects of cash, fixed income and other asset classes.
- **ESG returns:** By taking ESG factors into account, the Funds aims to reduce or avoid the adverse ESG impacts of certain activities.
- **Team:** The Funds are managed by Pie Fund's experienced investment team, with particular expertise in active equity investments.

Making investments

The minimum initial investment amount for each Fund is \$25,000. We may change this limit from time to time. After making an initial investment, you can invest any time by making a:

- lump sum payment; or
- regular contribution.

The Growth Fund and Emerging Companies Fund are 'closed', meaning that they will not accept any further investments by either existing or new investors. You can decrease the number of units you hold at any time by making a withdrawal.

For all other Funds, you can invest by completing an online application form (www.piefunds.co.nz) or give us a call for more information.

Subject to the Governing Document, we can vary or waive minimums either generally or for selected investors at our discretion.

Withdrawing your investment

You may withdraw all or part of your investment in a Fund by providing us with a completed withdrawal request in the form required by us (**“Withdrawal Request”**) (subject to any deferral or suspension of withdrawals). Withdrawals will be transferred into your nominated bank account on the following dates:

Fund	Withdrawal Date
<ul style="list-style-type: none"> Conservative Fund Global Growth 2 Fund 	Up to 5 business days after receipt of Withdrawal Request*
<ul style="list-style-type: none"> Dividend Fund Growth 2 Fund Global Growth Fund Growth UK & Europe Fund 	10 business days** after receipt of Withdrawal Request
<ul style="list-style-type: none"> Growth Fund 	20 business days after receipt of Withdrawal Request
<ul style="list-style-type: none"> Emerging Fund 	3 months after receipt of Withdrawal Request

*We will confirm the Withdrawal Date with you on receipt of the Withdrawal Request.

**We retain the discretion to increase this to 20 business days in unusual circumstances, including large one-off or multiple withdrawals or during periods of extreme market volatility.

The longer withdrawal periods for some Funds reflect they invest in smaller companies, and smaller companies can be illiquid and hard to sell quickly. This is particularly relevant for the Growth Fund and Emerging Companies Fund. A longer withdrawal period means we do not have to try to sell small companies quickly to fund withdrawals. Selling small companies quickly typically reduces the sale price. This disadvantages the investors withdrawing and the investors remaining in the affected Fund.

The applicable unit withdrawal price will be calculated using the unit price struck two business days before the Withdrawal Date above, not the day the Withdrawal Request is received by us. The unit withdrawal price is calculated by dividing the net asset value of the Fund by the number of units on issue.

Withdrawal Requests can be cancelled at any point up until three (3) business days before the Withdrawal Date.

You will generally not be permitted to reduce your investment in the Fund to less than the minimum initial investment amount.

We may, on 30 days' written notice to you, compulsorily withdraw your units from a Fund if your balance falls below the minimum investment amount of the Fund and pay the proceeds to your nominated bank account. In certain cases, we may also withdraw your units if that is necessary for a Fund to maintain its PIE status.

Right to sell units

So long as the minimum investment amount is met, you may sell or transfer all or any of the units you hold in a Fund. The transfer instrument must be in writing in any usual or common form which we approve and signed by both the transferor (you) and the transferee. We can decline to register a transfer if the withdrawal conditions above are not met, if any duties, taxes or other commissions, fees and charges are unpaid or for non-compliance with the law.

Suspending withdrawals

We may suspend Withdrawal Requests in respect of a Fund:

- for a period determined by us if Withdrawal Requests (received in a three (3) month period) relate to more than 5% of the number of units on issue for the Fund and we consider that it is in the general interests of all investors in the Fund to do so in accordance with the Governing Document;
- for a period determined by us if Withdrawal Requests (received in a three (3) month period) relate to more than 10% of the number of units on issue for the Fund (after notifying the Supervisor); and
- for up to 90 days (or such other period determined by us in consultation with the Supervisor) if we determine that the withdrawal is not practicable, would or may be prejudicial to the general interests of investors in the Fund, is not desirable for the protection of the Fund or would threaten the Fund's eligibility for PIE status, and we give a repayment suspension notice to the relevant investors and the Supervisor.

Where Withdrawal Requests are suspended, the withdrawal price payable to investors will be calculated on the day the units are withdrawn. We can vary or waive the minimum withdrawal amounts at any time.

How to switch between Funds

You may only switch between Funds by completing a switch form.

A request to switch will be treated as though it was both a Withdrawal Request and an application for units in the relevant fund you are switching to and we will apply the withdrawal proceedings in payment of the application moneys due. Pie Funds has the discretion to waive or reduce the period for switching.

Switches can be cancelled at any point up until three (3) business days before the applicable switch date (effectively, the Withdrawal Date).

3

Description of your investment option(s)

Fund	Investment objective and strategy	Target investment mix*	Risk indicator**	Minimum recommended investment timeframe

*Targets indicate what is expected to apply over the course of an economic cycle and should be considered general guides only. We may at times deploy investment strategies with differ materially from the above targets, subject to compliance with the Statement of Investment Policy and Objectives ('SIPO').

**During times of extreme market volatility, the risk may be greater than indicated. Past performance may not be a reliable indicator for the risk of the Fund.

***The Global Growth 2 Fund and Growth UK & Europe Fund do not have a five-year return history. The risk indicator was prepared using the fund returns since inception and market index returns for the balance of the five-year period. Accordingly, the risk indicator may provide a less reliable indicator of the potential future volatility of the Fund.

Fund	Period of market returns used (from 1 July 2015)
Growth 2	31 July 2015
Global Growth 2	30 April 2018
Growth UK & Europe	31 October 2016

The relevant benchmarks are found in the SIPO.

^Definitions set out below:

Types of companies	Definition
Smaller, Medium, Large	Companies which have small, medium and large market capitalization (respectively) relative to the exchange on which they are listed.
Emerging	Companies which have (at the time of investment) a market capitalisation of up to \$250 million in local currency).

The Scheme's SIPO has been established by Pie Funds in consultation with the Supervisor. It sets out the investment philosophy, strategies and objectives for each Fund. Pie Funds may make changes to the SIPO and provide the Supervisor with prior written notice of these. If we propose to change the SIPO in a manner which materially affects investors, we will also give affected investors at least 30 days' prior written notice of the change. The current SIPO can be found at www.piefunds.co.nz or at www.disclose-register.companiesoffice.govt.nz.

Further information about the assets in the Funds can be found in the fund updates at www.piefunds.co.nz or at www.disclose-register.companiesoffice.govt.nz.

4

What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

For the risk indicator for each Fund, see Section 3 ('Description of your investment option(s)').

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at: www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a Fund's future performance. The risk indicator is based on the returns data for the five years to 30 June 2020. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund update for the relevant Fund.

During times of extreme market volatility, the risk may be greater than indicated, particularly for funds investing in smaller companies which can be more volatile during market sell down.

General investment risks

Some of the things that may cause a Fund's value to move up and down, which affect the risk indicator, are:

- **Market risk:** The performance of a Fund will be affected by the performance of investment markets generally. The value of investments may go up or down in line with market movements. Markets will be affected by a range of factors including investor sentiment, political events, inflation, prevailing interest rates, economic and regulatory conditions and broader events like changes in technology and environmental events. In adverse market conditions, it is more likely the Fund's value will go down, particularly those Funds with heavy equity concentration.
- **Investment return risk:** Past performance is no guarantee of future performance. As Pie Funds is an active manager,

there is a risk that a Fund may underperform compared with its investment objectives or with the market.

- **Manager risk:** Investment management decisions (such as allocation of a Fund's investments between asset classes, investment sectors and individual investments) made by us may affect a Fund's returns, as will the performance of the businesses underlying the investments.
- **Liquidity risk:** Some investments, particularly those in smaller, emerging and/or unlisted companies may not be easily and quickly converted into cash. This may be due to an insufficient availability of buyers, trading suspensions, fund outflows or disruption/falls in the market. This risk is mitigated by having controls on the maximum size of positions, the overall liquidity of the fund relative to its withdrawal period, the maximum number of funds which can invest in smaller illiquid companies and longer withdrawal periods for those funds investing in smaller companies.
- **ESG risk:** A Fund may be affected by environmental, social or governance issues arising in one of the companies in which we invest e.g. health and safety issues, or issues arising from the environmental impact of a company's activities. This risk is mitigated (but not eliminated) by us performing thorough due diligence, and by each potential investment opportunity in a company being rigorously analysed before inclusion in a Fund's portfolio.
- **Key personnel:** The departure of any of Pie Funds' key personnel could impact on the performance of a Fund if we were unable to recruit a suitable replacement.
- **Currency risk:** As a portion of a Fund may be invested in foreign currencies, returns may be affected by movements between other currencies and the New Zealand dollar. If the NZD appreciates, the value of the foreign currency investment will drop (in NZD terms) which may have an adverse effect on the domestic value of international investment. We actively manage all currency exposure. It is not our intention to 100% hedge the currency. However, this decision is at our discretion.
- **Concentration risk:** as some of the Funds may hold a concentrated portfolio, returns of the Funds may be dependent upon the performance of individual investments. The concentration exposure may lead to increased volatility in a Fund's unit price and may affect performance.
- **Short selling risks** Funds may short sell, including through the use of derivatives which derive their value from underlying assets. When going short through derivatives, the derivatives will simulate the sale of an underlying security that a seller has borrowed, to be repurchased in the future, with the expectation this is done for a lower price than it was initial sold for. As the theoretical upper limit on a share price is unlimited, the potential loss (and negative impact on returns) is also unlimited. If the shares are borrowed to facilitate short selling, the lender may request return of the shares which gives rise to the possibility these shares will have to be bought at a time not of our choosing, potentially resulting in losses.

Other specific risks

In addition to the general risks above, the following specific risks apply to particular Funds:

- **Interest rate risks** is particularly relevant of the Conservative Fund – this is the risk that the value of the investment can change due to changes in interest rates. The Value of fixed interest securities can fluctuate significantly with relatively small change in interest rates.

- **Fund of fund risks** – Some of the Funds (**Global Growth Fund, Global Growth 2 Fund, Conservative Fund, Growth UK & Europe Fund**) invest into other Pie Funds products and externally managed funds including Exchange Traded Funds. Investments in Funds may be affected by unexpected changes in an underlying funds operation or business environment. There may be a risk of the underlying fund having its asset frozen for a period of time or the manager suspending withdrawals which may have an impact on your ability to withdraw or switch.

For more information about the specific types of risks, please refer to the Other Material Information document, available at www.disclose-register.companiesoffice.govt.nz.

5

What are the fees?

You will be charged fees for investing in the Funds. Fees are deducted from your investment and will reduce your returns. If Pie Funds invests in other funds, those funds may also charge fees. The fees you pay will be charged in two ways:

- Regular charges (for example, annual fund charges). Small differences in these fees can have a big impact on your investment over the long term; and
- One off fees (for example, any individual action fees) (currently none).

Total estimated annual fund charges

Fund asset value	Management and administration charges (% of net asset value)*
Australasian Funds	
Growth Fund	1.85%
Dividend Fund	1.85%
Emerging Fund	1.85%
Growth 2 Fund	1.85%
Global Growth Funds	
Global Growth Fund	1.62%
Global Growth 2 Fund	1.45%
Growth UK & Europe Fund	1.85%
Diversified Fund	
Conservative Fund	0.82%

*This includes an estimate of underlying fund charges, where applicable.

Actual fund charges will depend on the actual investment mix of the Funds and this may vary from the estimates. Actual charges will be available in the latest fund updates.

Fees are exclusive of GST (i.e. GST will be added, where applicable).

Fee types

Management and administration charges

The management and administration charges cover:

- Normal Fund operating costs such as the investment management, supervisor, custodial, accounting, audit and legal costs and is paid monthly. These fees are deducted from, and are reflected in, the Fund unit prices of the relevant Funds; and
- Estimated underlying fund charges, where applicable. If Pie is unable to determine the underlying external fund charges, these have been estimated from recent financial statements based on the actual costs as a percentage of average net asset value that were charged for the fund's previous financial year.

Performance-based fee

No performance fees are currently charged.

Individual action fee

No individual action fees are currently charged (e.g. entry, exit or switch fees).

Example of how fees apply to investors

Lucy invests NZ\$10,000 in the Growth Fund.

She is charged management and administration fees, which work out to be about NZ\$185p.a. (1.85% of NZ\$10,000). These fees might be more or less if her account balance has increased or decreased over the year.

Estimated total fees for the first year

Fund charges: NZ\$185

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

This example applies only to the Growth Fund. If you are considering investing in other Funds, this example may not be representative of the actual fees you may be charged.

The fees can be changed

Fees may be changed or new fees imposed provided we give you three (3) months' notice. We must publish a fund update for each Fund showing the actual fees charged during the most recent year. Fund updates, including past updates, are available at www.piefunds.co.nz.

6

What taxes will you pay?

Each Fund is a portfolio investment entity. The amount of tax you pay is based on your prescribed investor rate ('PIR'). To determine your PIR, go to www.ird.govt.nz/toii/pir/pir-index.html. If you are unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department. It is your responsibility to tell Pie Funds your PIR when you invest or if your PIR changes. If you do not tell Pie Funds, a default rate may be applied. If the advised PIR is lower than the correct PIR, you will need to complete a personal tax return and pay any tax shortfall, interest, and penalties. If the default rate or the advised PIR is higher than the correct PIR, you will not get a refund of any overpaid tax.

Please refer to the Other Material Information document at www.disclose-register.companiesoffice.govt.nz for further information on the tax consequences of your investment.

7

Who is involved?

About the Manager

Pie Funds is a fund manager established in 2007. Our aim is to minimise risk and maximise profit through the application of our specialised investment philosophy, methodology and expertise, providing you with above-average investment returns by investing in a concentrated portfolio of hand-picked companies.

Pie Funds

How to complain

Pie Funds

In the first instance, please direct complaints to:

Level 1, 1 Byron Avenue, Takapuna, Auckland 0622
Attention: Client Services Manager
Telephone: +64 9 486 1701
Email: clients@piefunds.co.nz

If we are unable to resolve your complaint, you may also contact the Supervisor at:

Trustees Executors Limited

Level 9, Spark Central,
45 Willis Street, Wellington
PO Box 10 519, Wellington 6143
T: +64 9 308 7110
Email: cts@trustees.co.nz
Attention: Corporate Trustee Services

Both Pie Funds and the Supervisor are members of an independent, approved dispute resolution scheme run by Financial Services Complaints Limited (**FSCL**).

If your complaint has not been resolved, you may refer it to FSCL. FSCL will not charge a fee to investigate or resolve a complaint

FSCL

Level 4, 101 Lambton Quay
PO Box 5967
Wellington 6140
Telephone: 0800 347 257
Website: www.fscl.org.nz
Email: complaints@fscl.org.nz
